ENVIRONMENTAL MANAGEMENT SYSTEMS

Multimedia

environmental program
management focused on
pollution prevention and
risk reduction

Client-specific, mission-supportive EMSs

Environmental Management Systems

Why Environmental Management Systems?

- Systematic approach to ensuring that environmental activities are well managed in any organization
- Assists in improving cost control
- Can help facilitate obtaining permits and authorization
- Helps in preventing environmental incidents
- Provides confidence to interested parties
- Can assist in maintaining good public/community relations.

ISO 14001 EMS Design and Implementation

- Client-specific, mission-supportive approach
- Hands-on experience in multimedia environmental program management
- Focus on P2 and environmental liability reduction and compatibility with safety and occupational health management systems
- In-depth, quick-start methodologies with effective results, including "Plan-Do-Check-Act" model

Return on Investment

- Reduced environmental footprint= improved cost control
- Reduced emissions, effluents, and wastes=improved efficiency
- Decrease environmental management=lower costs and liability

Capabilities

- Developing and implementing EMS programs
- Developing client-specific, mission-supportive approach
- Developing in-depth and quick-start methodologies
- Delivering effective results.
